

# National Criminal Records Check

Discover details on a person's criminal background.

## Choosing The Appropriate Criminal Background Check Method:

Criminal background checks can be carried out in several methods, depending on your needs. Mintz Global Screening is devoted to gathering any pertinent information that can be useful to you through all available resources.

Research typically starts at the national level. The Canadian Police Information Center's database may be searched in order to find out more about a person's criminal history.

In addition to your national criminal record check, we also provide Enhanced Criminal Record Checks, Fingerprinting, and Provincial Criminal Court Records for a more thorough audit. Additionally, we offer comprehensive criminal record checks both domestically and abroad (where allowed by law).

## Our National Criminal Records Check Service Will Help You:

-  Verify that the applicant is qualified for the position for which they applied.
-  Verify a person's criminal history and the specifics of the charges brought against them.
-  Maintain the reputation of your business while ensuring the security of both your clients and employees.

## Why You Deserve Our Service's Numerous Advantages:

### Compliance

Trusted quality compliance.

### Security

Highly secure online system.

### Canadian Databases

Data held in Canadian databases.

### Bilingual Presence

A bilingual team ready to adapt to your requirements.
