

eVite Technology

Choose eVite and let your applicants do the work for you!

An Efficient Way To Obtain The Information You Need To Make Informed Hiring Decisions:

In today's job workforce, shortages are a daily reality that human resource departments face. This makes the recruitment process more in-depth, requiring more time, energy and effort.

At Mintz Global Screening, we aim to ensure our clients are met with the most efficient background screening processes. To accomplish this, we have developed a technology that takes ownership of all of your background screening needs and will guide your applicants through every step with a few simple clicks.

Save Time & Energy:

The management of each background screening request can easily take 30 minutes, and the average Canadian employee turnover rate ranges between 20-24%. When estimating the figures, you will see that having eVite can allow you to **reduce your recruitment costs by up to 30%, all while saving you time and energy.**

Customers count on our professional team to provide them with vital information to make informed decisions on the suitability or risk level of any applicant, contractor, or employee.

Our eVite Technology is Proven To Be:

Simple

Allows applicants to provide the necessary information and documents required to complete the background verification by simply connecting to our secured online platform.

Quick

The requestor only gains access to the final background screening report once it is complete, saving considerable time.

Secure

An encrypted online platform that possesses a level of security comparable to one used by financial institutions.
